

## Q5 If so, given the choice, which type of service would best fit your individual needs:

Answered: 603 Skipped: 55

ANSWER CHOICES	RESPONSES
UNLIMITED SERVICE: Under this program, you would pay a fixed monthly price. Service would include weekly curbside pickup of both solid waste and recycling, with containers provided by the hauler, and permit you to place up to 2 cubic yards of additional waste outside of the carts. Large/bulky items (such as old carpet, mattresses, etc.) would generally be included in this monthly price, at no extra charge.	75.62% 456
BAG SERVICE: Under this program, pricing would be based on the number of bags of garbage that you generate and dispose of in a month. You would purchase 30-gallon bags directly from the hauler and your use would dictate the price. For example, if a bag costs \$3.00 and you used and put out one bag/month, you would pay \$3.00 plus a fixed monthly collection fee set by the hauler. If you used two bags per month, you would pay \$6.00 plus that fixed monthly collection fee. If you require removal of large/bulky items, additional individual charges would apply. This service would also include weekly curbside recycling, with containers provided by the hauler, at no additional charge.	7.46% 45
OPT OUT: You would chose not to sign up for either service, but would instead produce verification that (1) you own or have express permission to use a commercial dumpster for your personal trash disposal needs, or (2) agree to drive your trash yourself to a waste-disposal facility and pay to dispose of it there	18.08% 109
