# JUNE 2026 TRUSTEES CORNER

While Summer hasn't officially started, summer break has. The area children are out of school and are hopefully out and about. Please be vigilant in your travels and watch out for children playing. Be aware of speed limits, stop signs and traffic control lights, especially during low light times of day.

We wanted to provide a reminder regarding trash can placement. Trash cans should be separated by at least three (3) feet and placed no farther than five (5) feet from the roadway. Please avoid placing cans directly on the roadway as it can cause vehicles to travel into the on-coming traffic to avoid them and risking a collision with another vehicle. Some streets are serviced very early in the morning therefore it is highly recommended that you place your trash and recycling bins out the night before to avoid a missed pickup.

As we mentioned last month, the spring weather caused damage to many trees, including those on several township properties. We will be removing trees that were damaged beyond safe use and replacing them with indigenous trees. We have received great guidance from several reputable sources who provided great options to choose from.

Like your own home, our Township properties need regular maintenance to ensure their ongoing usability. You may have noticed a new roof on both Townhall and the Police Headquarters. These were approved last year and were delayed until this year due to weather. These roofs were needed to address deterioration of the old roofs and the leaks that had developed over the last few years.

Our maintenance and repairs extend to our township roads as well. Over the last few years, we have been replacing sections of roads in several residential areas of the township. While these projects occasionally inconvenience local residents the outcome is certainly worth it. The current phase of work in Brookside is nearing completion and we trust it will provide years of service to our residents. We will continue with these annual repair/replacement projects for the foreseeable future.
